Skills

Quantitative Research
NLP/NLU
Predictive Modeling
Survey Methodology
Causal Inference
Machine Learning
Bayesian Modeling
Data Visualization

Technology

R
Python
Shiny/Plotly
SQL/MongoDB
PyTorch

★★★★ Novice
★★★☆☆ Intermediate experience
★★★★★ Advanced experience
★★★★★ Expert

Profile

PhD data scientist with a history of using computational and social science methods to answer questions about social dynamics and human behavior. Passion for developing efficient, results oriented solutions to difficult analytic problems. Deep technical expertise with a background in the humanities and experience communicating with non-technical stakeholders.

Experience

Postdoctoral Fellow, Kellogg School of Management Northwestern University

Chicago, Illinois
October, 2019 - Present

Lead projects and consult on secondary projects focused on social science, NLP, and social media analytics. Design and implement Deep Learning-based NLP systems for fine-grained, target-based sentiment analysis

Graduate Research Fellow, Computational Social Sciences Lab

University of Southern California
Los Angeles, California
September, 2015 - September, 2019

Focused on NLP, statistics, social media analytics, and survey methods to study human values and real-world outcomes like charitable donation and hate speech

Data Science Consultant

Independent Contractor
March, 2017 - Ongoing

Design and implement custom solutions to analytic problems related to hypothesis testing, NLP, and market segmentation

Data Science Intern

Ranker
Los Angeles, CA
June, 2017 - August, 2017

Developed time-series models (ARIMAX) for dynamic Google AdSense ad pricing and developed Slackbot information recall system for embeddings-based similarity queries

PhD

Psychology

University of Southern California
Los Angeles, CA
2015 - 2020

MS

Psychology

University of Oregon
Eugene, OR
2013 - 2015

BA

English

Central Connecticut State University
New Britain, CT
2010
